INS-1000/S	Regular Size Face Shield (7.5"x13.4") Sterile
INS-510	Sweat Bands 5 Sets Per Package

- **Maximum Protection For Health Care Professionals**

The Face Shield System is designed for the protection of all health care professionals from accidental exposure to body fluids from virus infected patients. For use by surgeons, nursing staff, dentists, pathologists and more.

- **Ultra Lightweight For Comfort**

The ultra-light face shield protects the eyes, nose and oral cavity from inadvertent splashing of patient blood or other body fluids.

- **Optically Clear Shields - Disposable**

Being less restricting than goggles which protect the eyes only, the Instrumed Face Shield System protects the full face with an optically clear polycarbonate face shield. This face shield attaches by velcro fastener to the lightweight head frame in seconds.

- **Quick Tilt-up As Needed**

The Face Shield System offers a convenient "tilt-up" mechanism for flexibility during use.

- **Shields Available Sterile or Non-Sterile**

Individual face shields are available in cartons of ten. Please specify non-sterile or sterile shields.

- **Latex Free**
